

# John Stammerman

## Design System Expert | Mobile Product Designer

### Experience

#### UI/UX Design Manager

May 2023 to Present - Louisville, KY

**IQVIA**

As the UI/UX Design Manager at a top health IT firm, I lead the development of a robust mobile design language for Apple and Android devices, transforming concepts into tangible designs through sketches, wireframes, and prototypes. I collaborate closely with engineering teams to ensure exceptional user experiences and craft detailed mockups while gathering user insights for clear requirements. Committed to nurturing talent, I mentor junior designers and conduct Figma training sessions, promoting efficient design processes and collaboration.

#### Mobile Product Designer

September 2021 to April 2023 - Louisville, KY

**IQVIA**

As a Mobile Product Designer, I crafted intuitive apps for the medical tech space, creating detailed mockups and guiding solution design based on thorough user needs analysis. I adeptly communicated design concepts, from sketches to prototypes, and established a unified mobile design language for Apple and Android. I also presented advanced iOS and WatchOS concepts at the Apple Enterprise Design Lab.

#### UX/UI Design Lead

March 2011 to September 2021 - Louisville, KY

**Mercer**

As the UX/UI Design Lead at an HR tech firm, I crafted user-centric designs, transitioning from wireframes to detailed mock-ups. I managed UI libraries and design systems in line with corporate branding, conducted in-depth user research, and enhanced end-user experiences. My clear design communication strengthened ties with stakeholders, and my front-end expertise optimized the design-to-deployment process. I also led training on tools like Figma and Adobe, always seeking innovative solutions to elevate UX design value.

#### Web Administrator

December 2008 to February 2011 - New Albany, IN

**Indiana University - Southeast**

As the Regional Web Administrator for IU Southeast IT, I led diverse web projects and collaborated with a skilled team to develop campus websites and services. Covering all facets of web development, from design to installation, I ensured the creation and maintenance of software that provided seamless web access and functionality for staff and students everywhere.

#### Senior Interactive Developer

July 2007 to November 2008 - Louisville, KY

**Doe-Anderson**

At Doe-Anderson, as a Senior Interactive Developer, I leveraged my front-end and server-side skills for top brands like Maker's Mark and the National Center for Family Literacy. Proficient in XHTML, CSS, JavaScript, and ASP.NET, my work was key in elevating the digital footprint and interactivity of these notable brands.

#### UI Design & Development Lead

July 2004 to July 2007 - Louisville, KY

**Hosting.com**

#### Co-Owner & Senior Applications Developer

May 2000 to June 2004 - Louisville, KY

**LeapFrog (now Leap Group)**

### Education

#### University of Louisville
